BALDWINSVILLE CENTRAL SCHOOL DISTRICT

CODE OF CONDUCT 2022-2023

1. Purpose and Scope

The Board of Education of the Baldwinsville Central School District has adopted this Code of Conduct pursuant to Project SAVE and §100.2(l) of the Regulations of the Commissioner of Education. The purpose of this Code is to define the Board's expectations for conduct on District property and at District functions and to specify the range of penalties for unacceptable conduct.

Unless otherwise indicated, this Code applies to conduct committed by students, employees, parents and other visitors on District property, at District functions, or that otherwise adversely affects the District's educational program. In general, the rules established in this Code shall apply to all facets of school life, without distinction between the library, the study hall, the cafeteria, the hallways, bathrooms, the bus, or the classroom.

2. Philosophy

This Code is based upon the following philosophy with respect to discipline and the maintenance of public order in the school environment.

1. The Learning Environment. There is a direct connection between behavior in the schools and student learning. All members of the school community must develop and exercise self-control, self-discipline, and responsibility for their own actions in order to create an educational environment that allows teachers to teach and encourages students to learn.

2. Learning Appropriate Behaviors. Discipline is a learned process, and an important element of each student's education is learning appropriate behavior and the consequences of inappropriate behavior. All members of the school community must accept responsibility for their own behavior, and the consequences of their misbehavior.

3. Conduct of all Members of the School Community. In order to provide a safe and orderly environment for the delivery of quality educational services to the District's students, it is essential that all members of the school community behave in a manner that is consistent with accepted principles of civility, citizenship, tolerance, personal responsibility, respect for others, courtesy, honesty and integrity.

4. The Goal of Rehabilitation. A primary objective of disciplinary action is rehabilitation of the student and all disciplinary action shall be in the best interest of the student and the welfare of others. Each infraction of this Code should be dealt with on an individual basis, and the discipline should be commensurate with the act committed, the available relevant information, and the provisions of this Code.

5. The Goal of Self-Discipline. The best discipline is self-imposed. Student responsibility for self-discipline begins with the parents in the home, and must continue as a cooperative effort of classroom teachers, other District employees, the community and parents. District personnel are

expected to use disciplinary action only when necessary, and to place emphasis on the student's ability to grow in self-discipline whenever disciplinary action is required.

6. The Necessity for Clear Rules of Conduct. In the District's schools, as in the community at large, there must be a clear statement of the rules for proper conduct and the consequences for misconduct to guide students through constructive growth and into mature adulthood. Parents/guardians, District employees and others responsible for the welfare and education of our students must cooperate to enforce these rules of conduct.

3. Student Rights and Responsibilities

A. Rights

A right is a privilege to which one is justly entitled. Every student has the following rights:

1. Equal Educational Opportunity. The District will provide all students with an equal opportunity to acquire an education without interference from other students until age twenty-one, or until graduation if that occurs prior to age twenty-one.

2. Learning Environment. All students have the right to a safe and orderly classroom environment that will provide the opportunity for optimum learning.

3. Privacy. All students have the right to privacy, and shall be free from unreasonable search and seizure on District property and at District functions. However, since desks and lockers are District property, the District has the right to search desks and lockers at any time. Moreover, a student will be deemed to have consented to the search of his or her motor vehicle as a condition of the privilege of parking said vehicle on District property.

4. Student Records. Students, parents, and legal guardians have the right to have access to official student school records as provided by law. District personnel will work with parents/guardians to determine an appropriate time and method for the presentation of this material.

5. Expression. Students are entitled to express their opinions verbally or symbolically at appropriate times and in an appropriate, respectful manner. This right does not entitle students to spread misinformation, slander others, display inappropriate material or otherwise infringe on the rights of others.

6. Due Process. When faced with possible discipline, students have the right to the procedural due process set forth in this Code.

7. No bullying, discrimination or harassment. Students shall be free from bullying, discrimination and harassment on school property or school functions including but not limited to the educational program, activities, or admission policies of their school. Such conduct shall include, but is not limited to, threats, intimidation or abuse based on a person's actual or perceived race, color, weight, national origin, ethnic origin, ethnic group, religion, religious practices, disability, sex, sexual orientation, gender (including gender identity and expression) or any other legally protected status.

8. The Right to Resolve Grievances. Students have the right to air grievance problems and concerns through legitimate channels provided by the school and District.

B. Responsibilities

A responsibility is an obligation one has in order to retain the privileges associated with a right to certain freedoms. As representatives of the District, students who participate in school-sponsored activities outside of the school day remain subject to the expectations outlined by the Code of Conduct, the Code of Conduct for Student Athletes, and relevant supplemental contracts and criteria. Students are accountable for their own behavior on District property and at District functions, and are expected and encouraged to meet the following responsibilities:

1. **Take Advantage of the Opportunity to Study and Learn.** Students should take advantage of the academic opportunities offered at school, and support and participate in school activities. Students should also cooperate with school personnel at all times.

2. **Acknowledge the Rights of Others to Study and Learn.** Parents/guardians send their children to school to obtain an education. An individual student may decide not to take advantage of the opportunity. However, no student has the right to interfere with the education of others. Students have the responsibility to respect the rights of others to study and to work and to conduct themselves with respect toward self, fellow students, staff, and administration.

3. **Attend School Daily Unless Ill or Excused.** Schools cannot educate students who do not attend class. Students will attend school regularly and punctually. Students who enter a classroom after a lesson has begun are interfering with the rights of others to learn and study. Only excused absences will be allowed.

4. **Obey All School Rules.** Rules are created to provide the process for a school to educate students. Schools cannot achieve this goal if they are required to expend valuable instructional time maintaining order. Students must obey the rules established by this Code.

5. **Volunteer Information and Cooperate with the School Staff in Disciplinary Cases.** Every community depends upon the willingness of citizens to play a part in upholding the rules by which everyone has agreed to live.

6. **Come to School with the Necessary Books and Materials.** A teacher should not have to delay starting class because a student has come unprepared to work. This interferes with the rights of others to learn and study. Getting an education requires more than being in class, just as keeping a job requires more than showing up for work. Students are expected to come to school with the proper books and materials.

7. **Complete In-Class, Homework Assignments and Meet Deadlines In A Timely Manner.** Students, parents/guardians and teachers share in the responsibility for learning. Everything that must be learned cannot be accomplished during the school day, and, therefore, some homework should be expected each day, depending on the grade level. Strive to work up to your capabilities. Complete homework thoroughly and on a daily basis.

8. **Respect Public Property and Carefully Use and Return Materials and Equipment.** Schools represent a gift of the community to its young people. It is wrong to abuse that gift. Such abuse forces the community to spend additional money in order to provide the same opportunities for those students who will use the school after you. Students are required to respect public property. Respect private, public, and school property.

9. **Ensure That School Correspondence for Parents/Guardians Reaches Home.** Education requires a partnership between parents/guardians, students, and the school. For a partnership

to work, everyone must know what is happening, good and bad. Sometimes students are asked to be the messenger.

10. Remain on School Property During the School Day. A student may leave District property during the school day only if the parents/guardians has requested permission to do so, and the request has been granted by an administrator, nurse, or attendance clerk.

11. Act Appropriately. Be self-controlled, reasonably quiet and non-disruptive in classrooms, hallways, study areas, school buses, on school property, at school activities, and assemblies.

12. Be Respectful of Others. Be reasonable, modest, self-controlled, non-suggestive and considerate in your relationships with other students. Strive for mutually respectful relationships with teachers. Keep your language and gestures respectful and refrain from using vulgar, profane, or obscene or inappropriate language.

It is imperative that students follow the instructions of the administration and faculty/staff whenever there is an emergency drill, lock down, lockout, or evacuation. Failure to follow directions will result in a disciplinary consequence. - 14 accumulated absences/tardies in 20 weeks of school
- 20 accumulated absences/tardies in 30 weeks of school

Currently, the following intervention strategies are established to identify the cause(s) of absenteeism or tardiness, to reduce absenteeism or tardiness and to circumvent the need for action in the courts (e.g., PINS petitions): (1) Teachers and other appropriate staff members (e.g., school nurse, social worker, guidance counselor, attendance officer) shall be responsible for preliminary contact with parents/guardians and students to discuss absenteeism/tardiness and devise a plan of improvement. (2) Should #1 not result in attendance/tardiness improvement, the building principal and/or designee, based on referrals of teachers and the established attendance records, shall identify intervention strategies. These interventions may include, but are not limited to communication with parents, guardians, counseling and other support services, mentoring, progressive disciplinary action, and related community services.

Students who are absent/tardy for any reason have 3-5 days after returning to class to make up that work that was missed. Students who are aware ahead of an absence (such as educational trips, sports, etc.) are expected to make arrangements prior to their departure to obtain appropriate class work.

9. Penalties for Violations of the Code of Conduct

Students, employees and visitors who violate this Code will be subject to disciplinary action as the facts may warrant, including any of the penalties listed below:

A. Disciplinary Response to Student Misconduct

1. ***Disciplinary Interventions.*** Student misconduct should be handled first by the classroom teacher. When a teacher's efforts to resolve the behavioral problem are unsuccessful, District authorities may use a range of possible interventions in response to the misconduct. In most circumstances, a primary response will be to discuss the student's conduct with the parents/guardians in an attempt to correct such inappropriate behaviors. In addition, the District may attempt any or all of the following corrective actions:
 - Verbal Warning/Reprimand. Either a verbal or written warning or a reprimand may be given to the student in the appropriate case.
 - Change of Seat Assignments. Teachers have the discretion to change student seat assignments any time deemed appropriate.
 - Classroom Time Out. Teachers may remove students from the group for a brief period of time.
 - Office Time Out. Problems that are not resolved at the classroom level may be referred to the principal for appropriate action.
 - Public Apology. A student may be given the option of making an apology to class or to any individual (including staff) when mutually agreed upon after a call home.

- **Loss of Privileges.** In appropriate cases, a student may lose privileges, e.g., staying in at lunchtime, no free time, pass restriction, hall restriction, electronics restriction.
 - **Educational Programs.** In appropriate cases, a student may be required to review video or documents providing educational information regarding misconduct or infraction.
 - **Conflict Resolution.** In cases involving student-to-student conflict, a participating student may be referred to a voluntary conflict resolution procedure in lieu of formal discipline proceedings.
 - **Parent/Guardian Conference.** The student's parent/guardian will be contacted for a conference. The conference will include the student, the student's parent/guardian, school personnel and others whose participation is deemed appropriate by the District.
 - **In-School Planning.** Students who present problems that defy solution at the classroom level may be referred to the In-School Planning room.
 - **In-School Suspension.** Students may be removed from the classroom setting for a specified period of time, ranging from several hours to several days. The student will be provided with class work and is expected to complete it to the teacher's satisfaction in a quiet, orderly manner.
 - **Parent/Guardian Supervision.** Parent/guardian may be requested to spend one or more days with the student in the school setting.
 - **Detention.** Teachers or principals may direct student to report to detention during lunch period in appropriate cases. Parents/guardians may also consent to detention before or after school in lieu of formal discipline charges.
 - **Completion of Behavior Contract.** A student may be allowed to complete a contract for future behavior in lieu of discipline proceedings. The student will be bound by the terms of such a contract.
 - **Counseling.** The student may be counseled about their behavior. The student may also be referred for further appropriate counseling, and a written behavioral referral may be submitted to the principal indicating actions already taken and requesting assistance from administration, guidance, social worker, psychologist, the pupil service team and/or nursing staff.
 - **Probation.** The student and District authorities may agree that the student will be placed on probation with no other penalty imposed for the misconduct, provided that the student complies with the specific terms of the probation. The probation agreement may further provide that, if the terms of the probation are violated, the student may be disciplined for the original act of misconduct.
 - **Court Intervention.** Court assistance in the form of a PINS (Person In Need of Supervision) petition.
2. **Academic Sanctions.** In addition to other penalties provided herein, the principal and/or the Superintendent may deny credit for work done and may also deny the right to make-up an assignment or test for cutting class, cheating, leaving a final examination or Regents exam without permission, plagiarism and other misconduct related to academic performance.
3. **Friday Detention Alternative.** In lieu of out-of-school suspension for some infractions, parents/guardians may elect a Friday after school detention session for their student at Baker High School. Parents/guardians must provide transportation from the school building. Students will be required to sit quietly, to behave in an appropriate manner, and to read or do other productive school work for the full detention period. Students who fail to attend a scheduled Friday session, or who arrive after the session starts, or who are

disruptive during the session will be subject to disciplinary action by the appropriate building principal.

4. **Progressive Discipline.** Depending upon the nature of the violation, it is the Board's desire that discipline of students be progressive (that is, a student's first violation should merit a lighter penalty than subsequent violations). The individual determining the penalty should take into account all other relevant factors in arriving at an appropriate penalty. Depending upon the nature of the violation, the possible penalties listed in Section VIII. A.1. above may be imposed either alone or in combination.
5. **Range of Penalties.** Students who commit any act of misconduct specified in this Code will be subject to appropriate disciplinary action.

The range of penalties that may be imposed for violations of this Code by students include, but is not limited to, the following:

- (a) **Short-term Suspension from School.** The principal may suspend a student from attendance at school for a period not to exceed five school days.
- (b) **Long-term Suspension from School.** When the Superintendent of Schools determines, based on a referral from a principal, that a suspension in excess of five school days may be warranted, the District provides written notice to the student and the student's parent/guardian, of the date, time and place of a hearing, and the charges against the student. At such hearings, students may be represented by legal counsel, may question witnesses against them, and may present witnesses, testimony and documentary evidence on their own behalf. The hearings are conducted by a hearing officer designated by the Superintendent of Schools. The hearing officer is authorized to administer oaths, to conduct the hearing, to make findings of fact, and to make recommendations to the Superintendent of Schools regarding disciplinary consequences, if any. An audio recording of the hearing is made for the purpose of ensuring the accuracy of the record of the proceeding. At the conclusion of such hearing, the Superintendent may take whatever action is deemed appropriate, including but not limited to, indefinite suspension from school.

The hearing itself is not a disciplinary consequence, but, rather, a procedural requirement which must be observed before a student can be suspended for more than five days for a disciplinary infraction. Depending on the circumstances of the infraction, and the seriousness of the offense, the hearing may result in a decision by the Superintendent of Schools to impose an additional period of suspension. Students may be suspended for additional days, weeks, or months. In the case of certain weapons-related offenses, state law requires that the Superintendent of Schools impose a suspension from school of at least one-year.

Students suspended from school are prohibited from being on school property without permission, and any suspended student who violates this prohibition may be arrested for trespass.

- (c) **Involuntary Transfer.** Students may be involuntarily transferred to an appropriate educational setting in another school in compliance with the provisions of education law §3214(5).

- (d) ***Suspension from Other Activities.*** Students may also be suspended from transportation, athletic participation, social or extracurricular activities or other privileges upon compliance with fundamental due process procedures.
- (e) ***Personal Liability.*** The District may pursue, on behalf of itself or an employee, all available rights and remedies to obtain restitution for stolen or damaged property and to recover from the student and/or parents/guardian of the student for damages to personal property.
- (f) ***Police Notification.*** In cases involving criminal conduct, District authorities may refer the matter to appropriate law enforcement authorities.

B. Penalties for Specific Acts of Misconduct

Upon a finding that a student has committed an infraction specified herein, District authorities are authorized to use the following interventions and to impose the following range of penalties:

In the Elementary Schools - The permissible range of penalties and interventions for violations of this Code committed by elementary students is set forth in Appendix "A."

At Ray Middle School, Durgee Junior High School and Baker High School. The permissible range of penalties and interventions for violations of this Code committed by students attending these schools is set forth in Appendix "B."

C. BOCES Students

Suspensions from BOCES programs are also enforced as suspensions from the District's program and vice versa.

D. Minimum Penalties for Students

1. ***Students who bring a weapon to school.*** The minimum period of suspension from school for any student, other than a student with a disability, found guilty of bringing a weapon onto District property shall be one calendar year.
2. ***Students who commit other violent acts.*** The minimum period of suspension from school for any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto District property, shall be three days.
3. ***Students who are repeatedly disruptive.*** The minimum period of suspension from school for any student, other than a student with a disability, who engages in conduct which results in the student being removed from the classroom by a teacher pursuant to Section 11 of this Code on four or more occasions during a semester shall be three days.
4. ***Reports by teachers.*** All staff members must immediately report and refer a violent student to the principal or the Superintendent of Schools for a violation of this Code. All recommendations and referrals shall be made in writing, unless the conditions underlying the recommendation or referral warrant immediate attention.

In such cases, a written report is to be prepared as soon as possible by the staff member making the referral.

5. **Review by the Superintendent of Schools.** The Superintendent of Schools may reduce the minimum penalties established above on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent will determine whether a shorter period of suspension or other form of discipline may be more effective after considering the following:
 - (a) the student's age,
 - (b) the student's grade in school,
 - (c) the student's prior disciplinary record,
 - (d) input from parents/guardians, teachers and others, and
 - (e) other extenuating circumstances.

E. Misconduct at a District Function

The Superintendent is responsible for enforcing the conduct required by this Code at District functions, and may designate other District employees or agents to take action consistent with this Code.

When an individual is committing prohibited conduct that, in the judgment of the Superintendent or designee, does not pose any immediate threat of injury to persons or property, the individual shall be informed that the conduct is prohibited and asked to stop such conduct. The school official shall also warn the individual of the consequences for failing to stop. If the person refuses to stop engaging in the prohibited conduct, or if the person's conduct poses an immediate threat of injury to persons or property, the individual shall be immediately removed from District property or the District function. Students, staff and visitors who violate this Code while at a District function shall be subject to immediate ejection from the function. If necessary, local law enforcement authorities will be contacted to assist in removing the person. The District may initiate disciplinary action against any student or staff member, as appropriate. The District may also pursue civil and/or criminal sanctions against any person violating this Code.

F. Dress Code Violations

Individuals who violate the provisions of dress code established by this Code of Conduct shall be asked to cover or remove the offending item, or to replace it with an acceptable article of clothing. Any student who refuses to do so shall be subject to discipline, up to and including suspension from school. Employees, who refuse a request by the building principal to cover, remove or replace an offending item shall be subject to discipline in accordance with law. Visitors, who refuse a request by the principal to cover, remove or replace an offending item shall be subject to removal from District property or the District function, as the case may be.

G. Misconduct on School Buses

If a student acts inappropriately on a bus, the bus driver shall bring such misconduct to the principal's attention. Disciplinary measures for misconduct on school buses will include a principal's conference with the student, and may also include a principal's conference with the student's parent/guardian. Principals are authorized to take disciplinary action deemed appropriate, up to and including suspension of riding privileges for extended periods of time when the nature of the offense or the recalcitrance of the student warrants such action.

Parents/guardians will be informed by the building principal of violations of this Code and of disciplinary actions taken.

H. Misconduct During Summer School

The Superintendent of Schools, the Board of Education and the summer school principals are responsible for enforcing this Code during the summer school. Students who commit violations of this Code during summer school will be subject to the same range of penalties provided for violations that occur during the regular school year.

I. Special Education Students

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

J. District Employees

Any employee who, while on District property or at a District function, wrongfully refuses a valid request or command to desist in any conduct prohibited by this Code, shall be ejected from the premises. Employees found in violation of this Code of Conduct shall be subject to administrative, criminal and/or civil penalties as provided by law.

K. Visitors

Any visitor to District Property will report to the main office in the school. Unauthorized persons will be asked to leave, and the police may be called if the situation warrants.

The authorization of visitors who violate this Code, if any, to remain on District property or at the District function shall be withdrawn and individual(s) shall be directed to leave the premises. If the visitor(s) refuse to leave, the individual(s) shall be subject to ejection and to criminal and/or civil penalties as provided by law.

10. Discipline Procedures

A. Non-Disabled Students

The amount of due process a student is to be afforded before being disciplined for misconduct depends on the severity of the penalty. In all cases, the District employee authorized to impose the penalty must inform the student of the alleged misconduct committed, and must investigate the facts surrounding the alleged misconduct. All students must be given an opportunity to present their version of the facts to the school personnel imposing the penalty. Additional process shall be afforded as follows:

1. Detention. In appropriate situations, teachers, principals and the Superintendent may use after school detention for student misconduct as an alternative to removal from the classroom or suspension. Detention will be imposed only after the student's parent/guardian has been notified and confirm that there is no objection. The District will provide late bus transportation. Alternatively, the students must have appropriate transportation home following detention.

2. *Suspensions from Athletics or Extracurricular Activities.* A student subjected to a suspension from athletic participation, extracurricular activities or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent/guardian will be provided with a reasonable opportunity for an informal conference with the District official imposing the suspension to discuss the conduct and the penalty involved.

3. *In-School Suspensions.* In lieu of a penalty prescribed by this Code, students who would otherwise be suspended from school as the result of a Code violation may be placed in in-school suspension. A student subjected to an in-school alternative is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent/guardian will be provided with a reasonable opportunity for an informal conference to discuss the conduct and the In-school alternative with the District official imposing the In-School Suspension.

4. *Suspensions from School.* Suspension is perceived to be a serious disciplinary act and should be invoked when to do so is in the best interest of the student or for the welfare of others. Efforts will be made to notify the parent or guardian of the suspension prior to the time the student leaves the building. In the event that the parent/guardian cannot be contacted, the student shall remain in the building until regular dismissal time. A student who is suspended is not allowed on school property throughout the period of the suspension without special permission. Suspension from school is a severe penalty. Students who face possible suspension from instruction shall be afforded the procedural protections guaranteed by Education Law §3214 and applicable Commissioner's regulations. They shall also be entitled to the following process:

(a) Short-term Suspensions

When the principal proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the principal must immediately notify the student orally and, if the student denies the misconduct, explain the reasons for the proposed suspension. The principal must also notify the student's parents/guardians in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within twenty-four hours of the decision to propose suspension and shall be delivered to the last known address for the parents/guardians. Where possible, notice should also be provided by telephone if the school has been provided with telephone numbers for the purpose of contacting the parents.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parent/guardian of the right to request an immediate informal conference with the principal. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents/guardians. At the conference, the parents/guardians shall be permitted to ask questions of complaining witnesses under such procedures as the principal may establish.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and

opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the principal shall promptly advise the parents/guardians in writing, of his or her decision. The principal shall advise the parents/guardians that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the Board of Education with the District Clerk within ten business days of the date of the decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner of Education within thirty days of the decision.

(b) Long-term Suspensions

When the Superintendent or building principal determines that a suspension for more than five days may be warranted, the administrator shall give reasonable notice to the student and the student's parents/guardians, of their right to a fair hearing. At the hearing, the student shall have all the rights guaranteed by Education Law §3214 and applicable Commissioner's Regulations.

5. Permanent Suspension. Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on District Property or attending a District Function.

B. Special Education Students.

1. ***Violations that warrant a suspension of five or fewer days.*** The procedures set forth in Section 8 of this Code shall apply in those instances where it is determined that the misconduct of students who are classified as disabled by the Committee on Special Education (CSE) does not warrant a suspension in excess of five consecutive school days.
2. ***Violations that warrant a suspension of six to nine days.*** Where it is determined that the acts of misconduct of students classified as disabled by the CSE warrant a suspension from six to nine consecutive school days, the student shall be entitled to a Superintendent's hearing and the other protections of Education Law §3214.
3. ***Violations that warrant a suspension of ten or more days.*** The following procedures shall apply to students classified as disabled by the CSE where it is determined that their misconduct warrants a suspension of ten or more consecutive days:
 - (a) The District shall provide the parent/guardian with written notice of the Superintendent's hearing, and the student's rights at such hearing. At the same time, the District shall provide the parent/guardian with written notice of a CSE meeting to be held, if necessary, to determine whether the student's misconduct is a manifestation of the student's disability. This notice shall be served at least five days before the CSE meeting. A written notice of procedural safeguards shall be sent to the parent /guardian with the notice of the CSE meeting.
 - (b) Unless waived, a Superintendent's hearing shall be conducted pursuant to Section 3214 of the Education Law.

- (c) The Superintendent's hearing shall be bifurcated into a guilt phase and a penalty phase. Where the Superintendent's hearing concludes with a finding that the student has committed a violation of this Code, the Superintendent shall make a threshold finding whether the penalty will exceed 10 consecutive days or will constitute a disciplinary change in placement. If so, the hearing shall be adjourned and the matter shall be forwarded to the CSE to make the required manifestation determination.
- (d) The CSE shall determine (i) whether the behavior is a manifestation of the student's handicapping condition; and (ii) whether changes are necessary in the student's classification, placement and/or program in order to better meet the student's needs. If the CSE identifies deficiencies in the student's IEP or placement at this meeting, it must take immediate steps to remedy those deficiencies.

Where the CSE determines that the behavior is a manifestation of the student's disability, appropriate adjustments in the student's program and/or placement will be made by the CSE.

- (e) Where the CSE determines that the behavior is not a manifestation of the student's disability, the matter will be returned to the Superintendent for the penalty phase of the hearing. At that time, the Superintendent shall consider the student's special education records and may consider the student's anecdotal record. (The student's special education records shall be transmitted to the Superintendent or the hearing officer whether or not the CSE determines that the misconduct is a manifestation of the student's disability). The Superintendent may then impose disciplinary sanctions in accordance with this Code.
- (f) If the student is suspended for ten consecutive days or more (or is subjected to separate suspensions and/or removals that constitute a change in placement as provided in 8 NYCRR §200-1.3 (a)), the CSE must also conduct a functional behavioral assessment and develop a behavioral intervention plan for the student. The CSE shall meet to develop an assessment plan no later than ten school days after the suspension (or change in placement) commences. If the student already has a behavioral intervention plan, however, the CSE must review the plan and its implementation and modify it as necessary to address the current behavior. The CSE shall prepare the behavioral intervention plan as soon as practicable.

4. ***Suspensions or removals that amount to more than ten days.*** The procedures set forth in Section 8.B.3.(a) through (g) shall also apply to the discipline of those students classified by the CSE as disabled where the student is subjected to a series of removals or suspensions that constitute a pattern because they cumulate to more than ten school days in a school year; and because of other factors such as:

- a. the length of each removal or suspension;
- b. the total amount of time the student is removed or suspended; and
- c. the proximity of the removals or suspensions to one another.

5. ***Continuation of Instructional Program.*** The District need not provide educational services to students with disabilities who are suspended or removed from the classroom for ten or fewer days provided that such services are not provided to students without

disabilities who have been similarly disciplined. Therefore, during suspensions or removals of ten days or less, the District need only provide the student with alternate instruction, not the services listed in the student's IEP.

Where the suspension or removal is for ten or more consecutive days (or is subjected to separate suspensions and/or removals that constitute a change in placement as provided in 8 NYCRR §200-1.10(c)), the District must provide services to the extent necessary to enable the student to appropriately progress in the general curriculum and appropriately advance toward achieving the goals set forth in the student's IEP. The building principal, Superintendent, or other school officials imposing the suspension or removal shall determine, in consultation with the student's special education teacher, the extent to which services are necessary to enable the student to appropriately progress in the general curriculum and appropriately advance toward achieving the goals set out in the student's IEP.

6. ***Weapons or Drug Violations.*** The following procedures shall apply to the discipline of those students classified as disabled by the CSE in instances where the student has engaged in behavior involving weapons, illegal drugs or illegal substances:
 - a. The District shall provide the parent/guardian with written notice of the Superintendent's hearing, and the student's rights at such hearing. At the same time, the District shall provide the parent/guardian with written notice of a CSE meeting to be held, if necessary, to determine whether the student's misconduct is a manifestation of the student's disability. This notice shall be served at least five days before the CSE meeting. A written notice of procedural safeguards shall be sent to the parent/guardian with the notice of the CSE meeting. If the CSE identifies deficiencies in the student's IEP or placement at this meeting, it must take immediate steps to remedy those deficiencies.
 - b. Unless waived, a Superintendent's hearing shall be conducted pursuant to Section 3214 of the Education Law.
 - c. Where the hearing concludes with a finding that the student has committed a violation of this Code, the Superintendent may order a change in placement to an interim alternative education setting ("IAES") for up to forty-five days and refer the matter to the CSE to identify an appropriate IAES.
 - d. The CSE shall then meet to determine an appropriate IAES for the student. At that time, the CSE shall also conduct a manifestation determination.
 - e. The CSE must also conduct a functional behavioral assessment and develop a behavioral intervention plan for the student. The CSE shall meet to develop an assessment plan no later than ten school days after a student's change in placement to an IAES for a weapon or illegal drug violation. If the student already has a behavioral intervention plan, however, the CSE must review the plan and its implementation and modify it as necessary to address the current behavior. The CSE shall prepare the behavioral intervention plan as soon as practicable.
 - f. Even where the CSE determines that the student's behavior is a manifestation of the student's disability, the Superintendent may order a change in the student's placement to an IAES for up to forty-five days.

7. **IAES for Dangerous Students.** The following procedures shall apply to the discipline of those students classified as disabled by the CSE in instances where the student's conduct is substantially likely to result in injury to the student or to others:
- a. The District may request an expedited due process hearing to obtain an order of an impartial hearing officer that places a student with a disability in an IAES for up to forty-five days where school personnel maintain that it is dangerous for the student to be in the student's current placement.
 - b. The District shall propose an appropriate IAES for the student after consultation with the special education teacher. If the District requests such a hearing, it shall provide the parent/guardian with written notice of its intent to do so, an explanation of the proposed IAES, and the procedural safeguards notice.
 - c. The District shall appoint an impartial hearing officer and schedule the hearing. This shall be done as early as possible in the process, since the expedited hearing must be concluded within fifteen days from the request for the hearing.
 - d. At the hearing, the District must prove that (i) maintaining the student in the current placement is likely to result in injury to the student or others; (ii) it has made reasonable efforts to minimize the risk of harm in the current placement; and (iii) the IAES will enable the student to continue to progress in the general curriculum and to continue to receive those services and modifications, including those described in the student's IEP, that will enable the student to meet the goals in that IEP, and include those services that are designed to prevent the behavior from recurring.
 - e. If the hearing officer finds that the District has established the above-mentioned three items by substantial evidence, the hearing officer will order an IAES of up to forty-five days.
 - f. If the hearing officer finds that the District has failed to provide substantial evidence of the three items to be established at the hearing, the student must be returned to the student's current placement.
 - g. Within ten days of the hearing officer's decision, the CSE must conduct a manifestation determination. The District shall provide the parent/guardian with appropriate written notice of a CSE meeting to be held to conduct a manifestation review at least five days before the CSE meeting. A written notice of procedural safeguards shall be sent to the parent/guardian with the notice of the CSE meeting. If the CSE identifies deficiencies in the student's IEP or placement at this meeting, it must take immediate steps to remedy those deficiencies.
8. ***Students presumed to have a disability.*** In some instances, students who have not been classified by the CSE as having a disability will be afforded the protections of IDEA and Article 89 of the Education Law when it is alleged that they have committed a violation of this Code. This is true where the District is "deemed to have knowledge" before the alleged misconduct occurred that such student had a disability. In that event, the student is "presumed to have a disability for discipline purposes."
- a. The District will be "deemed to have knowledge" that a student had a disability if, prior to the time the alleged misconduct occurred:

- i. the parent/guardian of such student has expressed concern to District personnel, in writing, that the student is in need of special education, provided that such expression of concern may be oral if the parent/guardian does not know how to write or has a disability that prevents a written statement;
 - ii. the behavior or performance of the student demonstrates the need for special education; the parent/guardian of the student has requested that an individual evaluation of the student be conducted; or
 - iii. a teacher of the student, or other District employee, has expressed concern about the behavior or performance of the student to the director of special education or to other District personnel in accordance with the District's established child find or special education referral system.
- b. However, a student shall not be presumed to have a disability for discipline purposes if, as a result of receiving any of the information specified in Section 8.B.8.a.(i) through (iv), the District either:
 - i. conducted an individual evaluation and determined that the student is not a student with a disability; or
 - ii. determined that an evaluation was not necessary and provided notice of this determination to the parent/guardian.
- c. If a parent/guardian claims that the District is deemed to have knowledge that the student had a disability prior to the time the alleged misconduct occurred, the Superintendent or principal imposing the suspension or removal must determine whether the student is a student presumed to have a disability.
- d. If the Superintendent or principal imposing the disciplinary action determines that none of the factors set forth in subsection (a) above was present prior to the alleged misconduct or that the exclusion of subsection (b) above applies, the District is not deemed to have knowledge that the student had a disability. In that event, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.
- e. If, on the other hand, the District is deemed to have knowledge of the student's disability, the student may only be disciplined in accordance with IDEA and Article 89 of the Education Law.
- f. In the event a parent/guardian requests an individual evaluation while a non-disabled student is subjected to a disciplinary removal or suspension, the District must conduct an expedited evaluation. The process for such expedited evaluation is as follows:
 - i. An expedited evaluation must be completed no later than fifteen school days after receipt of the request for an evaluation. The District must send a written notice of the evaluation to the parent, guardian, or caregiver and obtain parental consent before such evaluation may be conducted.
 - ii. Not later than five school days after completion of the expedited evaluation, the CSE must hold a meeting to determine the student's eligibility for special education. The District must send the parent/guardian notice of this meeting at least five days prior to the meeting.

- iii. Until the expedited evaluation is completed, the student must remain in the placement determined by the District, which includes suspension or removal.
- iv. If the student is determined to have a disability, the District must provide special education to the student and may discipline the student only in accordance with IDEA and Article 89 of the Education Law.
- v. If the student is determined not to have a disability, the student may be subjected to the same disciplinary measures as any other non-disabled student.

C. Misconduct on School Buses

The procedures relative to alleged infractions of this Code governing student conduct on school buses are as follows:

1. A student subject to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent/guardian will be provided with a reasonable opportunity for an informal conference with the building principal to discuss the conduct and the penalty involved.
2. In cases of improper student conduct on school buses, drivers will discuss the situation with the offending student(s) and will complete a bus behavior referral form and forward the same to the building principal.
3. The principal will attempt to assure that the offending student understands the nature and potential consequences of the student's actions.
4. In administering disciplinary measures, building principals will consider the nature of the infraction, the age of the student, and the student's history of behavior in school and on school buses.
5. Where a student's riding privileges have been suspended, the student's parent/guardian will be responsible for seeing that the student gets to and from school safely.
6. In the event the suspension from transportation amounts to a suspension from attendance, the student will be entitled to a hearing pursuant to Education Law §3214 before the suspension exceeds five school days.

D. Misconduct During Summer School

1. A student who is suspended for misconduct that occurs during summer school is not entitled to a full hearing pursuant to Education Law §3214, unless the suspension contemplated for that student will extend into the regular school year.
2. If the suspension of a student suspended for misconduct, which occurs during summer school, is not contemplated to extend into the regular school year, that student is entitled to an informal meeting with the summer school principal prior to the imposition of any discipline.
3. If the suspension of a student suspended for misconduct, which occurs during summer school, is contemplated to extend into the regular school year, the District shall conduct a §3214 hearing before suspending said student from regular school for more than five days.

E. Waivers of the Superintendent's Hearing

A student and parent/guardian may voluntarily and knowingly waive their right to a Superintendent's hearing under Education Law §3214. The District shall make available a form for the convenient use of parents who wish to waive their right to such a hearing.

F. District Employees

Tenured faculty members shall be subject to disciplinary action as the facts may warrant in accordance with Education Law Section 3020-a, and any other legal rights that they may be entitled to.

Civil Service employees who are entitled to the protections of Civil Service Law §75 shall be subject to charges as the facts may warrant. Said charges will be filed and prosecuted pursuant to said statute, and in accordance with any other legal rights they may be entitled to.

Other staff members shall be subject to warning, reprimand, suspension or dismissal as the facts may warrant in accordance with any legal rights they may be entitled to.

Any District employee, whose conduct on District property or at a District function disrupts academic or other school activities or threatens the welfare of the person or property of others, shall be subject to immediate ejection and to disciplinary action as the facts may warrant in accordance with any legal rights that they may be entitled to.

G. Visitors

The following procedures shall apply procedurally to violations of this Code by non-students:

1. The Board of Education hereby delegates authority to enforce these rules and regulations to the Superintendent. The Superintendent of Schools may designate such person, or persons, as the Superintendent deems necessary, for the enforcement of these rules and regulations.
2. The Superintendent may initiate and/or receive charges of any alleged violation of these rules and regulations and cause all investigations to be made.
3. The Superintendent may request all lawful assistance to secure, remove, eject or otherwise prevent persons from adversely affecting public order or from materially disrupting normal school processes.
4. Enforcement of these rules and regulations against persons other than the students shall be as provided by law.

11. Appeals from the Imposition of Discipline

A. Appeals to the Board of Education

Appeals from all decisions of the Superintendent of Schools relative to this Code shall be taken to the Board of Education. All appeals shall be made in writing and shall set forth the decision

appealed from and the grounds for the appeal. The written appeal shall be filed with the District Clerk no later than ten business days from the date of the decision which is the subject of said appeal, unless the party appealing can show that extraordinary circumstances prevented the timely filing of the appeal. The Board may adopt, in whole or in part, the decision of the Superintendent and will make its decision in writing. The Board's decision shall be based solely upon the record before it.

B. Appeals to the Commissioner of Education

Final decisions of the Board of Education may be appealed to the Commissioner of Education within thirty days of the decision, in accordance with the timelines and procedures established in Section 310 of the Education Law.

12. Removal of Disruptive Students

A. Purpose

A disruptive student impairs a teacher's ability to teach and interferes with the ability of other students in the classroom to learn. The Board of Education expects that, in most instances, the classroom teacher will be able to control disruptive student behavior by using good management techniques. Occasionally, however, it may be necessary for a teacher to remove a disruptive student from the classroom to ensure that the other students can continue to learn. For purposes of this section, "removal" shall have the meaning set forth in Section 4 of this Code.

B. Right to Remove Disruptive Student

A classroom teacher may remove a student from class for up to two days if the teacher determines that the student is a "disruptive student." The removal from class applies to the class of the removing teacher only.

C. Teacher's Conference with the Student

1. **Immediate conference with the student.** If the student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must explain to the student, before the student is removed, why the student is being removed from the class. The student must also be given the opportunity to present their version of the relevant events. Only after this informal discussion may a teacher remove a student from class.
2. **Exception to the rule.** If the student poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, the teacher may order the student to be removed immediately. In this event, the teacher must explain to the student why the student was removed from the classroom, and give the student a chance to present their version of the relevant events within 24 hours of the time of removal.

D. The Principal's Role

1. **Teacher's meeting with the principal.** The teacher must complete a removal form and meet with the principal as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal form. If the

principal is not available by the end of the same school day, the teacher must leave the removal form with the secretary and meet with the principal prior to the beginning of classes on the next school day.

2. **Notice to the parents/guardians.** Within twenty-four hours after the student's removal, the principal or another district administrator designated by the principal, must notify the student's parent/guardian in writing, that the student has been removed from class. The notice must explain the reasons for the removal and also inform the parent/guardian that they have the right, upon request, to meet informally with the principal or the principal's designee to discuss the reasons for the removal and behavior modifications to remedy the cause for the removal.

The written notice must be delivered to the parent/guardian either personally or sent by express mail addressed to the last known address for the parent/ guardian or by some other means that is reasonably calculated to assure receipt of the notice within twenty-four hours of the student's removal. Notice should also be provided by telephone if the school has been provided with a telephone number for the purpose of contacting parents.

3. **Conference with parents/guardians.** If the student denies the charges at the informal meeting, the principal or the principal's designee must explain why the student was removed and give the student and the student's parents/guardians a chance to present the student's version of the relevant events. The informal meeting must be held within forty-eight hours of the student's removal. As a general rule, the teacher will attend this conference. The timing of the informal meeting may be extended by mutual agreement of the parent/guardian, teacher and principal.
4. **Principal's review of the removal.** The principal or the principal's designee may overturn the removal of the student from class if the principal finds that (a) the charges against the student are not supported by substantial evidence, or (b) the student's removal is otherwise in violation of law, or (c) the conduct warrants suspension from school pursuant to Education Law §3214, and a suspension will be imposed.

The principal or principal's designee must make a determination as to whether to overturn the removal before the close of business on the day after the day of the informal hearing. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the principal makes a final determination, or the period of removal expires, whichever is less. At the teacher's discretion, the teacher may rescind the removal prior to the expiration of the full period of removal.

E. Continued Educational Program

Any disruptive student removed from the classroom by the classroom teacher shall be offered the continued educational program and other activities of the class until the student is permitted to return to the classroom.

F. Documenting the Removal Process

Each teacher must keep a complete record of all actions related to a student's removal from the teacher's class on the District's removal form. The principal must also keep a record of all actions the principal takes with respect to a student who is removed from class in accordance with this section of the Code.

G. Special Education Students

Removal of a student with a disability may, under certain circumstances, constitute a change in the student's placement. For that reason, no teacher may remove a student with a disability from the teacher's class until the teacher has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

13. Referral to Authorities

A. Law Enforcement

The principal must notify promptly the Superintendent of Schools and the appropriate local law enforcement agency when the principal believes that any harassment, bullying or discrimination constitutes criminal conduct.

The principal must also immediately notify the Superintendent of Schools of other Code violations that constitute a crime and substantially affect the order or security of a school. The Superintendent is to inform the appropriate local law enforcement agency as soon as practical, but in no event later than the close of business on the day the Superintendent learns of the violation. The notification may be made by telephone, followed by a letter mailed on the same day. The notification must identify the student(s) and explain the conduct that violated the Code and constituted a crime.

B. Juvenile Justice Agencies

The District will immediately confiscate any weapons, alcohol or illegal substances possessed by a student and will notify the parent/guardian of the student involved of the incident. Appropriate disciplinary action will be taken, up to and including permanent suspension and referral for criminal prosecution.

The Superintendent of Schools shall refer any student who is determined to have brought a weapon to school who is under the age of sixteen, or who is fourteen or fifteen years old and does not qualify for juvenile offender status under the Criminal Procedure Law to the County Attorney for a juvenile delinquency proceeding before the Family Court.

The Superintendent of Schools shall refer a student over the age of sixteen and any student fourteen or fifteen years old who qualifies for juvenile offender status to the appropriate law enforcement authorities for prosecution. Students fourteen or fifteen years old who qualify for juvenile offender status under section 1.20 of the Criminal Procedure Law include those who possess a concealed firearm, machine-gun or loaded firearm on school grounds. The Superintendent of Schools may consult the District counsel if the Superintendent has any question as to whether the student in question does qualify for juvenile offender status.

C. Human Services Agencies

The Superintendent of Schools shall make a referral of a student discipline case to an appropriate human service agency whenever, in the Superintendent's judgment, the same is warranted. The Superintendent may receive and consider the recommendations of the student's principal, teachers, counselor, school psychologist and other pupil services personnel

familiar with the student in deciding whether to make such a referral and, if so, to which agency. The parent/guardian of the student shall be informed of the referral.

D. Superintendent's Designee

The Superintendent of Schools may, designate an individual to perform the obligations imposed upon the Superintendent by this Section.

14. Reporting

A. Completing the VADIR Form

The principal will complete an appropriate incident report for each violent and/or disruptive incident that occurs on school grounds. The incidents that require the completion of a VADIR report under this section are identified in the Regulations of the Commissioner of Education, §100.2(gg). The District shall retain completed VADIR forms for six years.

B. Submission of Annual Summary to the State Education Department

The District shall submit a summary report of the incidents recorded on individual VADIR forms completed during July 1 through June 30 on the Basic Educational Data System (BEDS) School Data Form for that school year in the space provided.

C. Reporting Discrimination, Harassment and Bullying

The school principal is the school employee charged with receiving all reports of harassment, bullying and discrimination; however, students, parents/guardians may make an oral or written complaint of harassment, bullying or discrimination to any teacher, administrator or school employee. The District will act to promptly investigate all complaints, verbal or written, formal or informal, of allegations of discrimination, harassment and bullying; and will promptly take appropriate action to protect individuals from further discrimination, harassment and bullying. It is essential that any student who believes they have been subjected to discrimination, harassment, bullying or retaliatory behavior, as well as any individual who is aware of and/or who has knowledge of, or witnesses any possible occurrence, immediately report same to any staff member or administrator. The staff member/administrator to whom the report is made (or the staff member/administrator who witnesses or suspects bullying/cyberbullying behavior) shall document and take appropriate action to address the immediacy of the situation and shall promptly report in accordance with the following paragraphs.

Upon receipt of a complaint (even an anonymous complaint), or if a District official otherwise learns of any occurrence of possible conduct prohibited by this policy, the school employee shall promptly and orally notify the school principal no later than one school day after such school employee witnesses or receives the complaint or learns of such conduct. Such school employee shall also file a written report with the school principal no later than two school days after making such oral report.

After receipt of a complaint, the school principal shall lead or supervise a thorough investigation of the alleged harassing, bullying and/or retaliatory conduct. The principal or the principal's designee shall ensure that such investigation is completed promptly and in accordance with the

terms of District policy. All complaints shall be treated as confidential and private to the extent possible within legal constraints.

Based upon the results of this investigation, if the District determines that a District official, employee, volunteer, vendor, visitor and/or student has violated the District's Code of Conduct or a material incident of harassment, bullying and/ discrimination has occurred, immediate corrective action will be taken as warranted, it will take prompt action reasonably calculated to end the violation, eliminate any hostile environment, create a more positive school culture and climate, prevent recurrence of the behavior, and ensure the safety of the student or students against whom such violation was directed.

As a general rule, responses to acts of harassment, bullying, and/or discrimination against students by students shall incorporate a progressive model of student discipline that includes measured, balanced and age-appropriate remedies and procedures that make appropriate use of prevention, education, intervention and discipline, and considers among other things, the nature and severity of the offending student's behavior(s), the developmental age of the student, the previous disciplinary record of the student and other extenuating circumstances, and the impact the student's behaviors had on the individual(s) who was physically injured and/or emotionally harmed. Responses shall be reasonably calculated to end the harassment, bullying, and/or discrimination, prevent recurrence, and eliminate the hostile environment.

In the event that the Principal is the alleged offender, the report will be directed to the Superintendent of Schools.

All complaints of alleged harassing, bullying and/or retaliatory conduct shall be:

- i. promptly investigated in accordance with the terms of district policy;
- ii. forwarded to the school building's Dignity Act Coordinator for monitoring; and
- iii. treated as confidential and private to the extent possible within legal constraints.

D. Prohibition of Retaliation

Any person having reasonable cause to suspect that a student has been subjected to discrimination or harassment by an employee or student, on school grounds or at a school function, who acting reasonably and in good faith, either reports such information to school officials, to the commissioner, or to law enforcement authorities or otherwise initiates, testifies, participates or assists in any formal or informal proceedings under this subdivision, shall have immunity from any civil liability that may arise from the making of such report or from initiating, testifying, participating or assisting in such formal or informal proceedings. Relatedly, neither the District, nor an employee or student thereof shall take, request or cause a retaliatory action against any such person who, acting reasonably and in good faith, either makes a report or initiates, testifies, participates or assists in such formal or informal proceedings.

15. Remedial Responses to Violations of the Code of Conduct

Students who violate this Code may also be subject to remedial action as the facts may warrant, including any of the measures listed below:

- a. peer support groups; corrective instruction or other relevant learning or service experience;
- b. supportive intervention;
- c. behavioral assessment or evaluation;

- d. behavioral management plans, with benchmarks that are closely monitored;
and/or
- e. student counseling and parent/guardian conferences.

Beyond these individual-focused remedial responses, school-wide or environmental remediation may also be utilized. These strategies may include:

- a. school and community surveys or other strategies for determining the conditions contributing to the relevant behavior;
- b. adoption of research-based prevention programs;
- c. modification of schedules;
- d. adjustment in hallway traffic and other student routes of travel;
- e. targeted use of monitors;
- f. staff professional development;
- g. parent/guardian conferences;
- h. involvement of parent-teacher organizations; and/or
- i. peer support groups.

16. Alternative Education Programs

The following educational programs shall be utilized as appropriate to meet the individual needs of students.

A. Suspended Students

When a student of any age is removed from class by a teacher pursuant to Section 11 of this Code and when a student of compulsory school age is suspended from school pursuant to Education Law §3214, the District will take immediate steps to provide the student with adequate alternative instruction. In addition, alternative instruction will be made available to any student over compulsory school age who evidences a sincere desire to complete their high school education.

B. In-School Planning Program

When a student exhibits inappropriate behavior, the student may be referred to the In-School Planning Room. A staff member will supervise this room, and will help the student write a contract to correct the unacceptable behavior.

1. **Preparation of Plan.** The In-School Planning Room is a designated room where students will remain until they have prepared a plan of action that will improve their behavior. The parents/guardian will be notified each time the process has taken place and will be provided with a copy of the resulting plan along with teacher comments. The teacher will contact students who have established a plan. The plan must be mutually acceptable; otherwise the student must remain in the ISP room in order to revise the plan.
2. **Planning Report.** An In-School Planning Report will be sent to the parents/guardian once the student has prepared an acceptable plan. This report includes (a) a summary of rule infraction; (b) a copy of the student's plan of action; (c) the length

of time the student has stayed in the In-School Planning Room; and (d) teacher comments.

3. ***In-School Planning Room.*** Students sent to the ISP room are expected to plan corrective steps to avoid future discipline problems.

(a) Students who refuse to go to In-School Planning will be subject to further disciplinary action as determined by the building principal.

(b) Students who do not complete their plan at the end of the day must return to the In-School Planning the following school day. Students who fail to report to In-School Planning the following day, will be called to the main office and sent to In-School Planning to complete an additional plan addressing the problem of failing to report to In-School Planning.

C. In-School Suspension

In lieu of a penalty as prescribed in Section 8 of this Code, students who might be suspended from school if found guilty of a Code violation may consent to be placed in in-school suspension.

A student who is permitted the in-school alternative will be removed from the classroom setting for a specified period of time, ranging from several hours to several days. The student will be provided with class work and is expected to complete it to the teacher's satisfaction in a quiet, orderly manner.

D. Peer Mediation

It is to be expected that throughout a school year, students may come in conflict with one another. It is important that students learn the proper way to handle a disagreement with a classmate, and peer mediation is available at the Baker High School and Durgee Junior High School as a method to resolve such disagreements. The purpose of peer mediation is to allow students to work out their problem before their problem escalates to a higher level. Peer mediation is not a form of discipline for students, and all students participate in mediation on a voluntary basis. Trained students will serve as mediators (neutral third parties) to facilitate the problem-solving process between two conflicting students. If mediation does not work, disputants may be recommended to a guidance counselor and/or administrator for additional intervention or consequences. Peer mediation issues include peer jealousy, rumors, misunderstandings, bullying and misuse of property. A trained faculty member is always present during peer mediation sessions.

17. In-Service Educational Programs

The Board will provide in-service education programs for all District staff members to ensure the effective implementation of this Code, to promote a safe and supportive school climate while discouraging, among other things, harassment, bullying and discrimination against students by students and/or school employees and to include safe and supportive school climate concepts in the curriculum and classroom management. In-service education programs shall also include training on the social patterns of harassment, bullying and discrimination, including but not limited to those acts based on a person's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender or sex, the identification and mitigation of harassment, bullying and discrimination, and strategies for effectively addressing problems of exclusion, bias and aggression in educational settings. The Superintendent may

solicit the recommendations of the District staff, particularly teachers and administrators, regarding in-service programs pertaining to the management and discipline of students.

18. Publication and Review

The Board will work to ensure that the community is aware of this code of conduct by:

1. Providing copies of an age-appropriate version of the summary of the code to all students, written in plain language, to ensure that students understand the standards of respect and appropriate behavior that the school community expects from them. This shall take place at a general assembly held at the beginning of each school year and on an on-going basis at registration for those students who enter the district after the beginning year meeting.
2. Making copies of the code available to all parents/guardians, students and community members throughout the school year.
3. Mailing a summary of the code of conduct written in plain language to all parents/guardians of district students before the beginning of the school year and making this summary available later upon request.
4. Providing all current teachers and other staff members with a copy of the code and a copy of any amendments to the code as soon as practicable after adoption.
5. Providing all new employees with a copy of the current code of conduct when they are first hired.
6. Making copies of the code available for review by students, parents/guardians and other community members.
7. Posting the code of conduct on the District's web site.

This Code shall be reviewed by the Board of Education on an annual basis and shall be amended when appropriate. In conducting this review, the Board will consider how effective the Code's provisions have been and whether the Code has been applied fairly and consistently. The Board may appoint an advisory committee to assist in reviewing the Code. The committee will be made up of representatives of student, teacher, administrator, and parent/guardian organizations, school safety personnel and other school personnel. Before making any revisions to the Code, the Board will hold at least one public hearing at which school personnel, parents/guardians students and any other interested party may participate. Amendments to the Code will be filed with the Commissioner of Education no later than thirty days after adoption.

19. Interpretation

A. Calculating Time Limits

When any period of time for an act to be done under this Code ends on a Saturday, Sunday or a public holiday, such act may be done on the next succeeding business day and, if the period ends at a specified hour, such act may be done at or before the same hour of such next succeeding business day.

B. “Time Out” Techniques

Nothing in this Code abridges the right and responsibility of a teacher to manage student behavior in the classroom. Short-term, time-honored classroom management techniques such as “time out” in an elementary classroom or in an administrator’s office or sending students briefly into the hallway are not considered removals from class. The removal process is not a substitute for good classroom management.

C. Authority to Suspend

Nothing in this Code abridges the customary right or responsibility of a principal to suspend a student when, in the judgment of the principal, the student’s conduct warrants the same.

D. Inconsistent Provisions

To the extent that any provision of this Code conflicts with any District rule, regulation or policy, the provisions of this Code shall be controlling.

E. Not Exclusive

These rules and regulations and the penalties imposed hereunder shall not be deemed exclusive, nor as a limitation, waiver, or extinguishment of the District's right to utilize other available legal remedies against persons who violate this Code. The District may take additional or other legal action, as it deems appropriate or necessary to maintain public order.

APPENDIX B:

CLASSIFICATION AND ALTERNATIVE INFRACTION DESCRIPTIONS (GRADES 6-12)

1. Violent and Disruptive Incidents

Generally, violent and disruptive incidents will result in the imposition of a suspension by the principal, who is permitted by state law to impose out-of-school suspensions for up to five school days. In such cases, the principal may refer the matter to the Superintendent of Schools, who will determine whether a hearing is warranted to consider the charge against the student and whether additional disciplinary consequences might be warranted.

The Superintendent of Schools may, after a determination by the hearing officer that the student had in fact violated the Code of Conduct, and after considering the recommendation of the hearing officer regarding the imposition of further disciplinary consequences, impose additional periods of suspension, e.g., for the remainder of the quarter, semester or academic year, or for a year or more. Some violent and disruptive incidents may give rise to questions about a student's need for counseling or related services outside of school, and the Superintendent may require a student to obtain such services as a condition of eventually returning to school.

The following infractions are among those for which extended periods of out-of-school suspension may be imposed, and for which counseling may be mandated as a condition of returning to school, and for which police referrals are possible and likely:

Assault	Sexual Offenses

False Alarm	Threat or False Alarm)
Homicide	Weapons
Material Incident of Discrimination	Use, Possession, or Sale of Alcohol

2. Other Infractions

Principals may impose a range of disciplinary consequences for other violations of the Code. Disciplinary consequences will reflect the seriousness of the offense and the disciplinary record of the student. Progressive discipline may also result in a referral of non-violent offenses for consideration at a superintendent's hearing, at which additional disciplinary consequences, including long-term suspension, may be imposed.

APPENDIX C:

CODE OF CONDUCT FOR STUDENT ATHLETES

1. Introduction

Athletics are an important component of the District's educational program. The Code of Conduct for Student Athletes applies to student athletes from their first interscholastic participation through graduation. These rules are in effect from July 1 through June 30 of each school year, and apply to all student athletes in grades seven through twelve.

Participation in athletics is a privilege, not a right. Because of this, student athletes are held to a higher standard. Students' participation in the District's athletic program is conditioned upon their adherence to the provisions of this Code of Conduct for Student Athletes.

2. General Requirements

- Student athletes and parents/guardians must sign a contract signifying that the athletes and their parents/guardians understand and accept all Rules, Code/Standards and expectations of the Athletic Code of Conduct.
- Student athletes must be enrolled in three full-time courses and actively participate in physical education classes, as required by the New York State Public High School Athletic Association.
- Student athletes must have received a current physical examination and must have returned all of the appropriate forms.
- Student athletes must attend all practices and games throughout the sport season, unless absence is approved by the coach. Interscholastic sport teams in-season must have priority over club or recreational type programs.
- Student athletes must meet all eligibility standards and abide by the rules set forth by the Baldwinsville Central School District, the Central New York Counties League, Section III, and the New York State Public High School Athletic Association.

***A season is defined as: the first Section 3 approved date of practice to the conclusion of the NYSPHSAA State Championship for that sport of participation**

3. Academic Eligibility Standards

Students are expected to remain in good academic standing during the periods of their participation in athletics. Failure in two courses will result in a probationary status for two weeks, during which time the student must demonstrate the necessary improvement. If the deficiency persists in three or more courses, the student will be ineligible to participate in athletics. Please note: dropping a course during the period of ineligibility will not result in a change to eligible status. The ineligibility remains in place until the subsequent report card date.

A. Varsity/Junior Varsity and Freshman Interscholastic Athletic Teams

1. Academic Eligibility (**JV and Varsity**) to be run using 3 Marking Periods, which align with Section III's Fall, Winter and Spring sports' seasons. These Quarters would include Mid-Mark Marking Period 1 (5 weeks) for the Fall season (start date Aug); Mid-Mark Marking Period 2 (15 weeks) for the Winter season (start date Nov), and 3rd Quarter Marking Period (30 weeks) for the Spring season (start date March).
2. Review mid-grade points to review grades to inform students and parents that the student's continued eligibility may be in jeopardy by continuing to use our Eligibility Probation Contracts.
 - If a student is failing one subject, during any of the academic eligibility periods as mentioned above, the student may continue to participate. Students will be allowed to participate with one failing grade, but must continue their efforts to bring the grade up to passing.
 - If a student is failing two subjects during any of the academic eligibility periods as mentioned above, the student has two weeks to bring at least one of the subjects up to a passing grade and the student may continue to participate. The student will contract with the teacher, coach, parent/ guardian and administration to bring the student's grades up to passing. If, after the two weeks, the student is failing two subjects, the student athlete will be suspended for the remainder of that season.
 - If a student is failing three or more subjects, the student will be declared ineligible to participate for the remainder of that athletic season.

B. 7th, 8th and 9th Modified Interscholastic Athletic Teams

1. Academic Eligibility (**Modified**) to be run using 4 Marking Periods, which align with Section III's Fall, Winter 1 & Winter 2, and Spring sports' seasons. These Quarters would include: Mid-Mark Marking Period 1 (5 weeks) for the Fall season (start date Aug); 1st Quarter Marking Period (10 weeks) for the Winter 1 season (start date Nov), 2nd Marking Period (20 weeks) for the Winter 2 season (start date Jan) and 3rd Quarter Marking Period (30 weeks) for the Spring season (start date April).
2. If a student is failing one subject, during any of the academic eligibility periods as mentioned above, the student may continue to participate. Students will be allowed to participate with one failing grade, but must continue their efforts to bring the grade up to passing.
3. If a student is failing two core academic classes during the academic eligibility period they will be placed on academic probation. Academic probation requires the student to secure an Athletic/Extra-Curricular Eligibility Report form, have their teachers complete the form, and present the information to the student's coach or advisor. Students will receive instructions from their Assistant Principal on how to complete the form and how to present it to their teachers for completion.

After receiving the Athletic/Extra-Curricular Eligibility form, the student can continue to participate in extracurricular activity. Students have one week to meet with the teachers in the subject areas they are failing and complete the form with the teachers and create a plan to bring their grade(s) up. This plan needs to be written on the form, signed by the teachers and returned to the main office within one week of receiving the form. If the form is submitted within one week; the student will continue to fully participate in the extracurricular activity. If a student does not hand in the form they will be deemed ineligible until the form is submitted.

Students will receive a copy of the completed Athletic/Extra-Curricular Eligibility Report form. After two (2) weeks from the date the initial form is submitted to the office, the student will turn in verification that they have abided by the plan created with their teachers. Failure to do so will result in suspension from games/matches. Students can continue to practice until the conclusion of the season.

4. If a student is failing three or more subjects, the student will be declared ineligible to participate for the remainder of that athletic season. At that point, the ineligibility continues until the student is passing all subjects (except that the student may participate with one failing subject under the conditions set forth in item one above.)

Communication of Eligibility Status

Ineligibility will become effective on the Monday immediately after the date grades are published in School Tool. When a student is placed on the ineligible list, administration will meet with the student athlete to review the expectations and communicate what steps the student athlete has to take in order to continue to participate in extracurricular activities.

It is the student athlete's responsibility to complete the Athletic/Extra-Curricular Eligibility Report form within the deadline.

4. Behavioral Eligibility Standards

Student athletes are expected to abide by the applicable codes of conduct, to demonstrate respect for the rights of others, and to behave in a manner that reflects positively on themselves, their school, and their community. Specifically, students are expected to:

- a. refrain from the use, possession, sale or distribution of alcohol, drugs, and tobacco/non-tobacco and related novelty products, on or off campus;
- b. demonstrate self-control and respect for others during participation in all athletic activities;
- c. respect the integrity and judgment of faculty, staff, and officials involved in the athletic activities;
- d. be familiar with, understand, and abide by the rules and regulations of the athletic activity or event;

Students who fail to meet these behavioral expectations may be suspended from their participation in athletics, in addition to any other penalty imposed by the school or by the district.

5. School Attendance

Student athletes must be in attendance for the entire school day in order to be eligible to participate in practices or athletic contests on that day. Student athletes who are truant or who are serving in-school suspension or out-of-school suspension will not be eligible to participate in practices or athletic contests on that day. The athletic director, principal, or superintendent of schools may make exceptions for the following reasons:

- death or serious illness in the family;
- court appearance;
- college visitation;
- medical appointment verified by a note from the medical office personnel;
- religious observance;
- extraordinary circumstances.

6. Level 1 Violations

It is a violation of the Code of Conduct for Student Athletes to:

- a. use, possess, sell or distribute tobacco/non-tobacco, related novelty products and/or accessories;
 - i. If a student is caught vaping with a nicotine charge the first time. The student must complete the Vape Educate program. While the student athlete is completing the program, they cannot participate in athletics.
 - ii. The student athlete will be reinstated back into the athletic program once completion is verified. Once reinstated the student athlete will receive a one (1) game/contest/match suspension.
 - iii. If a student is caught vaping with a nicotine charge for the second time. They will have to follow the athletic reinstatement process.
- b. use, possess, sell, distribute or be under the influence of alcoholic beverages, illegal drugs or performance enhancing substances (*e.g.*, caffeine pills, steroids), whether legal or illegal, look-alike drugs, or drug paraphernalia on school grounds, off school grounds, whether during sport season or out of sport season;

- g. Will not engage in indecent exposure at any time or at any place.

For purposes of this section, "possess" shall mean to have in one's possession or control, *e.g.*, on one's person or in one's physical control or keeping, or to have in one's presence or close proximity.

7. Level 1 Violations – Consequences

Following the investigation of the facts by the coach, Athletic Director or building administrator, the following actions will be taken for violation of the Code of Conduct for Student Athletes by the Athletic Director:

- Parent/guardian notification;
- suspension from participation in District athletic programs until the student has been through the reinstatement process.

PROCESS:

The student athlete is immediately suspended from the team or athletic club for the remainder of that sport season. This includes all regular season games and post-season play. The suspension continues for future interscholastic sports participation while the student's appeal or request for reinstatement is pending.

The student athlete may seek reinstatement for eligibility for the season of desired participation. If approved, participation would commence following completion of the in-season suspension and completion of any additional consequences imposed. The reinstatement process requires that a student submit a written request for a meeting with the Athletic Reinstatement Committee. This meeting will be held within two weeks from receipt of the student's written request. The Athletic Reinstatement committee will make a recommendation regarding reinstatement to the Athletic Director. The Athletic Director will make a determination to deny or grant reinstatement. Within five school days, the athletic director shall notify the student in writing of the decision of the Athletic Reinstatement Committee. The student athlete and the student's parent/guardian(s) have the right to appeal the decision within five (5) days to the Superintendent of Schools or the Superintendent's designee.

Once the Athletic Reinstatement Committee or the Athletic Director has determined that the student will be reinstated, then, as a condition of such reinstatement, one or more of the following additional consequences will be applied based on seriousness of the violation:

- A minimum of three hours of substance abuse awareness counseling or education may be required for drug- and alcohol-related infractions.

- If the suspension is for less than 25% of the regular-season contests in the present sport season, the student will have the difference applied to the next sport season of participation to meet or, if applicable, exceed 25% minimum number of contests. The suspension is applied the next sport season of participation for which student previously participated on during the past calendar year and also applied to any sport which the student did not participate on during the last calendar year, which takes place prior to the sport of previous participation.

Example: A soccer/lacrosse player is suspended from the fall season and for 20% of the next season of participation. Reviewing the previous year, this individual would sit out 20% of the upcoming spring season. If the student athlete elects to participate in the winter season, the student will sit out 20% of both seasons (spring and winter).

- The minimum suspension after student reinstatement process is 25% and could range up to one calendar year.
- If a modified student athlete commits a level 1 violation during their modified career (modified 7th/8th, modified 8th/9th or modified 9th) the student athlete will follow the process for reinstatement for consideration to return to modified athletics.
- If a modified student athlete commits two level 1 violations during their modified career (modified 7th/8th, modified 8th/9th and modified 9th) they will be deemed ineligible to participate in modified athletics.
- Any student deemed ineligible in modified athletics is allowed to participate in high school athletics (Varsity, Junior Varsity & Freshman). If this student athlete commits another level 1 violation at the High School Level they will immediately enter into the athletic reinstatement process.

Post-season play is not calculated into the percentages.

- If all terms of the suspension are completed during the regular season, the student athlete would be eligible to participate in the post-season.
- If the student athlete has not completed all terms of the suspension, during the regular season, the student athlete will serve the terms of the suspension into the post-season. At the time all terms of the suspension are completed, the student athlete would be eligible to participate in the remainder of the post season at the direction of the Athletic Director.
- Any post-season awards, recognition or attendance at banquets will be determined by the coach and the athletic director.

8. Level 2 Violations

1. Student athletes will adhere to individual team rules, which are established in writing by coaches and on file in the athletic office, and which shall not be inconsistent with the Code of Conduct.

2. Student athletes will return school equipment and uniforms at the end-of-season, or they will forfeit post-season awards and will not be eligible to participate in any other sport until the matter has been resolved.
3. Student athletes who quit or are unable to finish the season or post season play because of disciplinary action, academic ineligibility, or other reasons, will forfeit all awards, including team awards, certificates, letters, pin, etc.
4. Student athletes will dress appropriately and participate in scheduled physical education classes.
5. Student athletes will not engage in activities or actions which bring discredit to the school program or team as determined by the coach, athletic director or principal.
6. Student athletes will be responsible for theft or damage of uniforms, money or school property related to the athletic program.
7. Athletes will not be absent from practices or games to attend other sports, clubs or recreational type activities. In-season interscholastic program will take priority over these activities.

9. Level 2 – Consequences

Decisions regarding the enforcement of the Level 2 consequences for first and second offenses are made by the individual coach(es), who submit a written report to the athletic director regarding the violation and the consequences imposed as a result of the violation. All third offenses will be reviewed by the coach and athletic director to determine the consequences.

- 1st Offense: A first offense penalty may range from an official warning to exclusion from athletics for up to 25% of scheduled contests. Post-season awards will be determined by the coach and athletic director.
- 2nd Offense: A second offense penalty may range from exclusion from athletics for up to 25% of the season, which could be carried over to the next sport season of participation. Post-season awards will be determined by the coach and athletic director.
- 3rd Offense: A third offense penalty will result in suspension for up to one calendar year, and forfeiture of awards and post-season recognition.

During the period of suspension, the student athlete is ineligible to participate in any contests or team activities for the duration of the suspension. The coach, athletic director and principal will determine whether the suspended student athlete will participate in practices and/or attend contests. In no case will the suspended student athlete dress in a school uniform, sweats or team clothing during the suspension period.

10. Parent & Guardian Responsibility

Parents and guardians are essential partners in maintaining a safe, educational and enjoyable program of athletics for students. When present at the District's athletic events, including

practices, they are expected to model the kind of citizenship and sportsmanship that is expected and required of students. The following are among the District's expectations for the parents/guardians of student athletes:

1. Parents/Guardians are knowledgeable about the Rules and Conduct/Standards to which their children have committed as student athletes.
2. Parents/Guardians review the athletic code of conduct with their student athlete(s) and to know the consequences for violations of those Rules and Conduct/Standards and assist in their enforcement.
3. Parents/Guardians are supportive and encourage their children to demonstrate appropriate behavior while representing the District as student athletes.
4. Parents/Guardians hold their children accountable for their actions and guide them in making proper decisions regarding drugs, alcohol and tobacco.
5. Parents/Guardians are knowledgeable about individual team rules and expectations and address concerns regarding their children's program to the coach.
6. Parents/Guardians are knowledgeable spectators, knowing the rules of the game and serving as role models for sportsmanship. They cheer our successes, and show understanding in the wake of defeat. They encourage the efforts of their children's teams, and they respect the efforts of the opposing teams.
7. Parents/Guardians adhere to state laws that prohibit smoking (includes electronic cigarettes) on school grounds or in school buildings.
8. Parents/Guardians should encourage their student athlete(s) to be proactive if they have a concern with their team and to follow the protocol. It is important for our student athletes to advocate for themselves if they have a concern.
9. Parents/Guardians demonstrate a respect for the privacy of all student athletes, and an understanding of the coaches' responsibilities to all student athletes, by refraining from speaking with coaches about such issues as playing time, athletic ability, and team strategy, insofar as those subjects relate to student athletes other than their own child.

11. Protocol for Athletic Concerns

If a concern/situation presents itself during the season, below is the protocol to address the concern/situation. As a reminder, there is a 24-hour rule for speaking with coaches after a meet/meet/game.

As a reminder, parents/guardians and student athletes will refrain from speaking with coaches about such issues as playing time, athletic ability, and team strategy insofar as they relate to student athletes other than their own child.

- Student athlete meets with coach – if not resolved;
- Student athlete & parent/guardian meets with coach – if not resolved;

- Student athlete, parent/guardian and coach meets with the Athletic Director.

12. BCSD Spectator Sportsmanship Policy

The Baldwinsville Central School District (BCSD) believes in the educational value of Interscholastic Athletics, and therefore emphasizes the importance of good sportsmanship and equitable competition. Student-athletes are expected to follow the rules and play to the best of their abilities while demonstrating good sportsmanship, and spectators are expected to encourage and to cheer positively for their teams. At times, when people get emotionally caught up in the competition, they cross the line between encouraging and discouraging, positive and negative. Therefore, the BCSD has implemented rules to apply to spectator behavior, similar to those that already exist for players and coaches.

Behavior that degrades, humiliates, intimidates or threatens a player, coach, referee, school official or another parent/guardian, or fan before, during or after a contest is subject to action by school personnel. Anyone who engages in misconduct as described above, or who is removed from an interscholastic contest at the request of a game official or school personnel, will be subject to the following:

- 1st Offense: Offender(s) removed immediately from the contest and prohibited from attending the NEXT contest of that sport. (Whether the contest is home or away). If it is the last contest of the season, the penalty carries over to the next season.
- 2nd Offense: Offender(s) prohibited from attending ANY contests in that sport for the remainder of the season in question (fall, winter, spring). If it is the last contest of the season, the penalty carries over to the next season.
- 3rd Offense: Offender(s) prohibited from attending ANY HOME OR AWAY school district athletic events for one full calendar year, commencing from the date of the 3rd offense.

13. Acknowledgement of the Risk of Injury

Parents/guardians acknowledge that participation in athletic programs exposes participants to the risk of injury, including, but not limited to, the risk of sprains, fractures and ligament and/or cartilage damage which could result in a temporary or permanent, partial or complete impairment in the use of limbs, brain damage, paralysis or even death. Having been so cautioned and warned, participation in the District's athletic program by the student athlete indicates the parent's/guardian's full knowledge and understanding of the risk of injury.

APPENDIX D: STANDARDS FOR PARTICIPATION IN CO- AND EXTRA-CURRICULAR ACTIVITIES AND FOR ALL STUDENTS WHO SERVE IN LEADERSHIP ROLES

1. Introduction

Participation in Co- and Extra-Curricular Activities, as well as, serving in leadership roles is an important part of the overall educational experience of the students of the Baldwinsville Central School District. The Code of Conduct for students who participate in Co- and Extra-Curricular Activities and for Students who serve in Leadership Roles applies to these students from their initial commitment of participation through graduation. These rules are in effect from July 1 through June 30 of each school year, and apply to all students who participate in Co- and Extra-Curricular Activities and for all Students who serve in Leadership Roles in grades seven through twelve.

Participation in Co- and Extra-Curricular Activities and serving in leadership roles is a privilege, not a right, and because of this, students are held to a higher standard. This privilege is conditioned upon the students' adherence to the provisions of this Code of Conduct, and may also be forfeited by students who fail to meet academic, behavioral or activity-specific eligibility standards. Students who serve on any club or group, or who are elected as class officers or officers for Honor Society will also be expected to follow these stipulations and to behave according to all of their particular group's local, state, or national constitutions or bylaws.

2. Academic Eligibility Standards

Students are expected to remain in good academic standing during the periods of their time as a student leader and throughout participation in co-and extra-curricular activities. Failure in two or more courses will result in a probationary status for two weeks, during which time the student must demonstrate the necessary improvement. If the deficiency persists in three or more courses, the student will be ineligible to participate in co- or extra-curricular activities until the deficiency is resolved. Please note: dropping a course during the period of ineligibility will not result in a change to eligible status. The ineligibility remains in place until the subsequent report card date.

a. Academic Eligibility to be run using 3 Marking Periods. These Quarters would include Mid-Mark Marking Period 1 (5 weeks) for the Fall (start date Aug); Mid-Mark Marking Period 2 (15 weeks) for the Winter (start date Nov), and 3rd Quarter Marking Period (30 weeks) for the Spring (start date March).

b. Review mid-grade points to review grades to inform students and parents that the student's continued eligibility may be in jeopardy by continuing to use our Eligibility Probation Contracts.

Co – and Extra – Curricular Activities

1. Students failing one or more core academic class(es) at the conclusion of a marking period will be placed on academic probation. If a student is failing one subject during any of the academic eligibility periods as mentioned above, the student may continue to participate. Students will be allowed to participate with **one failing grade**, but must continue their efforts to bring the grade up to passing.
2. If a student is failing two subjects during any of the academic eligibility periods as mentioned above, the student has two weeks to bring at least one of the subjects up to a passing grade and the student may continue to participate. The student will contract with the teacher, coach, parent or guardian, and administration to bring the student's grades up to passing. If, after the two weeks, the student is failing two subjects, the student will be suspended from the activity until the next five or ten week marking period, whichever comes first. At that point the ineligibility continues until at least one grade is brought up to passing. Whenever a student is participating with one failing grade, the conditions set forth in item one above will be in effect.
3. If a student is failing three (3) or more subjects, the student will be declared ineligible to participate in any activity until the next five or ten week marking period, whichever comes first. At that point, the ineligibility continues until the student is passing all subjects (except that the student may participate with one failing subject under the conditions set forth in item one above).

7th , 8th and 9th Co-and Extra – Curricular Activities

1. Academic Eligibility (7th, 8th, & 9th) to be run using 4 Marking Periods. These Quarters would include: Mid-Mark Marking Period 1 (5 weeks) for the Fall season (start date Aug); 1st Quarter Marking Period (10 weeks) for the Winter 1 season (start date Nov), 2nd Marking Period (20 weeks) for the Winter 2 season (start date Jan) and 3rd Quarter Marking Period (30 weeks) for the Spring season (start date April).
2. If a student is failing one subject, during any of the academic eligibility periods as mentioned above, the student may continue to participate. Students will be allowed to participate with one failing grade, but must continue their efforts to bring the grade up to passing.
3. If a student is failing two core academic classes during an academic eligibility period they will be placed on academic probation. Academic probation requires the student to secure an Athletic/Extra-Curricular Eligibility Report form, have their teachers complete the form, and present the information to the student's coach or advisor. Students will receive instructions from their Assistant Principal on how to complete the form and how to present it to their teachers for completion.

After receiving the Athletic/Extra-Curricular Eligibility Report form, the student can continue to participate in the extracurricular activity. Students have one week to meet with the teachers in the subject areas they are failing and complete the form with the teachers and create a plan to bring their grade up. This plan needs to be written on the

form, signed by the teachers and returned to the main office within one week of receiving the form. If the form is submitted within one week, the student will continue to fully participate in the extracurricular activity. If a student does not hand in the form they will be deemed ineligible until the form is submitted.

Students will receive a copy of the completed Athletic/Extra-Curricular Eligibility Report form. After two (2) weeks from the date the initial form is submitted to the office, the student will turn in verification that they have abided by the plan created with their teachers. Failure to do so will result in suspension from performances, matches, competitions, etc. Students can continue to participate in meetings; however, failure to turn in verification that they have abided by the plan created with their teachers within four weeks from the date the initial form is submitted to the office, the student will be deemed ineligible to participate in co- and extra-curricular activities until the student turns in the verification.

4. If a student is failing three or more subjects, the student will be declared ineligible to participate in any activity until the next five or ten week marking period, whichever comes first. At that point, the ineligibility continues until the student is passing all subjects (except that the student may participate with one failing subject under the conditions set forth in item one above.)

Communication of Eligibility Status

Ineligibility will become effective immediately after the date grades are published in School Tool. When a student is placed on the ineligible list, Administration forwards the contract to the appropriate coach/advisor who in turn discreetly gives it directly to the student.

It is the student's responsibility to complete the Athletic/Extra-Curricular Eligibility Report form within the deadline.

3. Behavioral Eligibility Standards

Student leaders and students involved in co- and extra-curricular activities are expected to abide by the applicable codes of conduct, to demonstrate respect for the rights of others, and to behave in a manner that reflects positively on themselves, their school, and their community. Specifically, students are expected to:

4. School Attendance

Students must be in attendance for the entire school day in order to be eligible to participate in co- and extra-curricular activities or serve in leadership role activities on that day. Students who are truant or who are serving in-school suspension or out-of-school suspension will not be eligible to participate in co- and extra-curricular activities or serve in leadership role activities on that day. The principal or the principal's designee or superintendent of schools may make exceptions for the following reasons:

- death or serious illness in the family;
- court appearance;
- college visitation;
- medical appointment verified by a note from the medical office personnel;
- religious observance;
- extraordinary circumstances.

It is a violation of the Code of Conduct for Students participating in Co- or Extra-curricular activities or serving in leadership roles to:

- a. use, possess, sell or distribute tobacco/non-tobacco, related novelty products and/or accessories;

- f. will not engage in indecent exposure at any time or at any place

For purposes of this section, "possess" shall mean to have in one's possession or control, e.g., on one's person or in one's physical control or keeping, or to have in one's presence or close proximity.

6. Level 1 Violation - Consequences

If a student leader or participant in a co-or extra-curricular activity is accused of being in violation of the group's standards, the club, class, or Honor Society advisor will report the claim to the Building Principal or the Principal's designee. Following the investigation of the facts by the Advisor or building administrator, the following actions will be taken:

- Parental or Guardian notification;
- Suspension from the leadership role and/or participation in the activity until the student has been through the reinstatement process.

Both students and parent(s) and guardians may request a meeting with the Principal or the Designee to discuss the conduct violation and to discuss the parameters of the suspension and the appeal process.

7. Appeals and Requests for Reinstatement

Appeals of decisions pertaining to academic, behavioral and activity-specific eligibility decisions, and requests for reinstatement to eligibility in a co-or extra-curricular activity, may be submitted to the principal, who will consider such appeals and requests in consultation with appropriate members of the faculty, including the faculty advisor of the co- or extra-curricular activity in question.

The reinstatement process requires that a student submit a written request for a meeting with the co-curricular Reinstatement Committee. 8. Communication of these Standards to Students and Parents

Students share in the responsibility for the maintenance and development of safe and successful school programs. Therefore, it is necessary that academic and behavioral standards be effectively communicated to students participating in such programs. Toward that end, academic and behavioral eligibility standards shall be included in school-based student handbooks. Additionally, faculty advisors to co- and extra-curricular activities are expected to review with participating students the academic and behavioral requirements of the District, as well as any additional expectations regarding participation in the particular activity.

Parents and Guardians are essential partners in the maintenance of safe and successful school programs. Therefore, these academic and behavioral standards shall be communicated to parents and guardians in a manner deemed appropriate by the individual schools.
